Financial Information

Alphacrucis College New Zealand is a Private Training Establishment (PTE) that receives Government funded subsidies for eligible domestic students. This funding, together with the generous contribution of time from the adjunct faculty and visiting lecturers helps in keeping costs to a minimum. Students are charged fees, which make up the balance of their tuition costs.

Full time domestic students may apply to [StudyLink](#) for student loans and allowances provided through the Ministry of Education (further details are available from the College).

Fee details are provided on a separate schedule available from the Registrar, and are protected by the Public Trust according to the NZQA Student Fee Protection Rules 2013 and the Tertiary Education Commission.

Domestic Students

Student fees are payable in full after the eighth day following the commencement of courses in each semester. Where students cannot meet this requirement an alternative schedule of payments may be negotiated. This may be on a weekly or monthly basis, payable in advance.

If you have not participated in any tertiary studies before, then you may be eligible for final-year fees-free study allowances. For more information, please click on the weblink here: <https://www.feesfree.govt.nz/>

International Students

Students will need to pay their full fees prior to obtaining a student visa. When students make their fee payments, Alphacrucis will deposit the money into a secure trust account. A receipt and notification of acceptance will then be sent to the student so that a visa application can be made.
